

TRACK SOFT

Document Tracking Solution

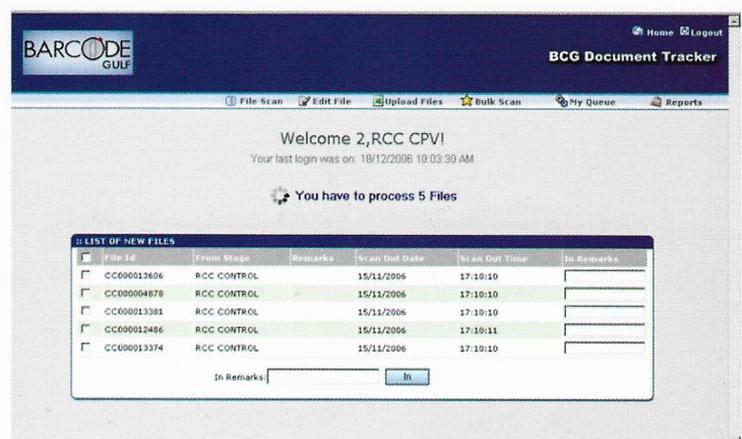

- Powerful barcode based document tracking solution
- Track the movement of documents or files within an organization
- Pinpoint the current location of a file within the organization
- Capture the stage wise and total turn around time for a file
- Complete reporting for Status, Location, Productivity, TurnAround Time (TAT), etc
- Eliminate misplaced / lost files during file movement.
- Identify bottlenecks in the file movement process.
- Works via the Intranet or Internet
- Proactive feedback on expected and received files

Barcode Gulf's TrackSoft Document tracking solution is a powerful, easy to use solution to efficiently track the movement of files within the company.

The solution uses barcodes and barcode scanners to capture the information into an easy to use Web based application.

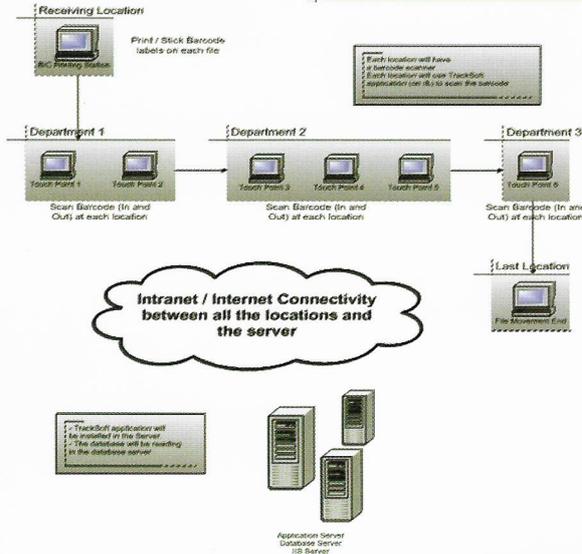

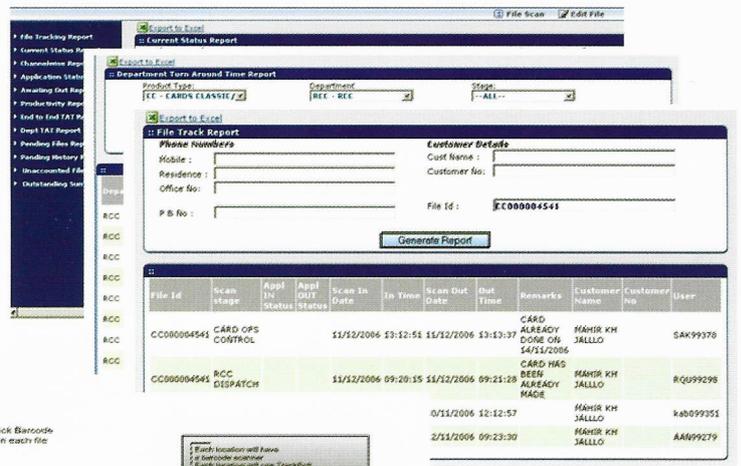

The TrackSoft application provides the user the ability to locate a file at the click of a button and also eliminates missing or misplaced files.

SET UP	SCAN	REPORTS
Location	Fire Create	File Status
Stage	Scan In	File History
Product	Scan Out	TAT Report
User	Pending	Efficiency
